

SAN JUAN ISLAND NATIONAL HISTORIC PARK

PUBLIC USE REPORTING AND COUNTING INSTRUCTIONS

Following are detailed instructions for collecting and reporting data to be entered on Form 10-157, Revised, Monthly Public Use Report by **San Juan Island National Historic Park**. These instructions are effective the date of issuance and will continue in effect unless changed by amendment or by memorandum from the Statistical Office to the superintendent approving a requested change.

Each item below describes the procedures to be followed in collecting public use data and summarizing the various elements of those data for entry on the corresponding line on the 10-157 Monthly Public Use Report.

Recreation Visits

1. An inductive loop traffic counter is installed across the eastbound lane of American Camp Road northwest of the Exhibit Center. The traffic count is adjusted by fifty percent for in-holders on American Camp Road. The adjusted traffic count is reduced for non-reportable vehicles (30 per month). The reduced vehicle count is multiplied by the persons-per-vehicle multiplier of 3.0.
is reduced
2. A pneumatic tube counter is installed across the entering/exiting lanes of British Camp. The traffic count is divided by 2 to adjust for vehicles entering and exiting. The adjusted count is reduced for non-reportable vehicles (30 per month). The reduced vehicle count is multiplied by the PPV of 3.0.
3. The number of visitors entering the visitor center at Friday Harbor.

Recreation Visitor Hours

1. The number of recreation visitors is multiplied by 1 hour May through September and 0.5 hour October through April.
2. The number of visitors enter the visitor center at Friday Harbor is multiplied by 1 hour May through September and 0.5 hour October through April.
